## Physical Plant

<p><b>Number of buildings:</b></p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	2
<p><b>Number of inmate housing units:</b></p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	27

# Audit Findings

## Audit Narrative (including Audit Methodology)

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The PREA Audit for the York County Prison was conducted from August 25, 2020 to August 27, 2020. Initially this audit was scheduled for April 2020, however, with the onset of the COVID-19 pandemic, it was postponed until August. Audit notices were sent to the facility in advance of the required six week posting and those notices were posted as required with photo verification provided to this Auditor.

The facility provided the pre-audit questionnaire and supporting documentation to this Auditor in advance of the onsite audit. In addition, supporting documentation was also provided for review.

Upon arrival at the facility, this Auditor met with the administrative team for introductions, to review the agenda, discuss the process of the audit, answer any questions and discuss the logistics of the onsite audit. After that was completed, the tour of the facility began. The tour was lengthy due to the size of the facility and the number of housing units to view.

Due to the COVID-19 pandemic, some housing units were on quarantine and this Auditor was not able to go inside of the unit, however, because of the layout was able to view into the units.

At the conclusion of the tour, interviews with staff began. This Auditor was provided with staff listings and chose the interviewees at that time. Additionally, listings of the inmate population were provided and interviewees from those lists were also chosen.

In total, (21) staff interviews were conducted, with (7) of those being random staff chosen from each shift and (14) were specialized staff positions. Two of the staff interviews had to be conducted by phone due to scheduling issues on the days of the onsite audit. One interview was conducted via phone with a volunteer, as at this time, no outside volunteers are allowed in the facility.

This Auditor did also reach out to speak with the SAFE nurse at the York Hospital and the rape crisis center, YWCA of York/Victim Assistance Program.

Additionally, (40) inmate interviews were conducted with (20) of those being chosen randomly from all housing units and (20) of those from specialized lists.

Document review conducted onsite included personnel and training files for randomly selected staff members, inmate file review and investigation file review. These reviews were done at appropriate times throughout the onsite audit visit.

At the conclusion of the onsite audit visit, a small exit meeting was held to discuss information on compliance and/or non-compliance of standards known at that point in the audit process. The Auditor did inform the staff that this was not the final list and this would change after further review of information by this Auditor.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

The York County Prison (YCP) is located at 3400 Concord Road, York, PA. This is within the city limits of the city of York, the county seat. This facility houses both male and female adults and juveniles charged as adults. YCP not only houses those that are charged and/or sentenced in York County, but also parole violators (PV's) who are on parole with the PA Department of Corrections and individuals detained by the U.S. Immigrations and Customs Enforcement Agency (ICE).

York County Prison has developed a mission statement. It reads as follows.

*The mission of York County Prison is to maintain a safe, secure environment for a diverse population of incarcerated individuals, staff and visitors. We are dedicated to implementing innovative methods of security and working with our community partners to provide quality education and treatment programs to increase the probability of successful re-entry.*

The rated capacity of the facility is 2652 which includes 2400 inmate beds and 276 work release beds. The average daily population for this year is 1640 and on the first day of the onsite audit the population was 1157. This is not typical for this facility, however, with the current situation with the COVID-19 pandemic, the staff of the facility has reduced the inmate population in an effort to reduce the susceptibility of the inmate population to contract the disease. Even with the reduction efforts, there were housing units on quarantine during the onsite audit visit. There have been approximately 300 cases of COVID-19 within the facility at the time of the onsite audit.

The physical plant of this facility is quite large as it has been added onto multiple times. The original facility was opened in 1979. The newer section of the facility was added on beginning in 1994. Included in the over 600,000 square feet design of the facility are three types of housing units. These types of housing units include single cell units, multicell units and dormitory style units.

The facility contracts with PrimeCare for medical and mental health services in the facility and both of these programs are full time operations. The medical department at the facility operates on a 24/7 basis.

Due to the COVID-19 pandemic, the facility has had to change housing units and with the reduction of population, close a number of housing units. In addition to the reduction in the number of inmates housed at the facility, a number of corrections officers, counselors and other staff have been laid off. Also due to the restrictions placed on the facility by the Commonwealth of Pennsylvania, and to prevent the spread of the disease, many of the programming elements have had to be suspended since the middle of March 2020.

Additionally, due to the reduction in the number of inmates and staff, the population has been moved to close a number of housing units and this has lead to the suspension of some of the mission based units to be suspended at this time as well. This includes the Work Release program.

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The York County Prison operates one facility; therefore, the standards do not require that this facility has both a PREA Coordinator and a PREA Compliance Manager (PCM). However, the administration has determined that for this facility it is important to employ both positions.

At YCP, the PREA Coordinator is the Deputy Warden of Centralized Services (DW). The PCM handles PREA issues that arise and is also responsible for population management issues. When both were questioned about whether each had enough time in their schedules for PREA issues, each said that they did as they rely on the other to assist when needed.

The DW was clear that she relies a great deal on the PCM to ensure the day to day PREA issues are handled. The PCM indicated that she feels as though her responsibilities can sometimes feel as though it is two full time jobs. She did indicate that if PREA requires additional time or assistance, it is provided for her.

Review of the policy 2.1: *Sexual Abuse, Assault, Prevention and Intervention*, shows that the facility has a zero-tolerance policy. It reads as follows.

*York County Prison maintains a zero-tolerance policy for all forms of sexual abuse or assault. It is the policy of York County Prison to provide a safe and secure environment for all detainees, employees, contractors, and volunteers, free from the threat of sexual abuse or assault, by maintaining a Sexual Abuse and Assault Prevention and Intervention (SAAPI) Program that ensures effective procedures for preventing, reporting, responding to, investigating, and tracking incidents or allegations of sexual abuse or assault. Sexual abuse or assault of detainees/inmates by other detainees/inmates or by employees, contractors, or volunteers is prohibited and subject to administrative, disciplinary, and criminal sanctions.*

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.)  Yes  No  NA

#### 115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.)  Yes  No  NA

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Each facility which complies with PREA standards is required to have a staffing plan which is reviewed once a year. YCP has created a staffing plan for the facility and that plan is reviewed annually. Upon the review of this staffing plan, it is missing several of the elements required by this standard.

During the corrective action period, the facility provided additional documentation in which all elements could be verified. These documents included the 2017-2020 Strategic Plan and YCP-PREA Yearend Reports, PA DOC Review – 2017, 2018, 2019 and 2020 Staffing Analysis documents.

As part of the discussion, this Auditor provided examples of compliant staffing plans from other facilities as requested by the Warden at YCP, as well as a guidance document written by the PRC. It would be this Auditor's recommendation that the facility write a staffing plan consistent with the examples provided.

Unannounced rounds are conducted in the facility as required. Higher level staff members are required to conduct rounds on a daily basis on each shift, including the overnight shifts. Each staff member documents these rounds in the logbooks for each housing unit. Documentation was shown to this Auditor during the onsite audit visit. In addition, the facility provided examples of these logbooks as part of the supporting documentation in the pre-audit phase of the audit.

During the onsite tour of the facility, there were (3) areas that need to be addressed to come into compliance with this standard. This Auditor discussed these items with the staff members on the tour at the time.

- B-Pod – the film on the window needs to be extended to ensure that showers are not visible to the hallway.
- D-Pod – the film on the hallway windows to the showers need to be fixed to ensure that staff cannot view into the showers to view genital areas of inmates.
- F-Pod – a shower curtain needs to be put on the shower to ensure that inmates can shower without being viewed by staff members of the opposite sex.

The facility has made these required corrections and provided photographs of these areas showing the corrections made.

(N/A if facility does not have youthful inmates [inmates <18 years old].)  Yes  No  NA

#### 115.14 (b)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The YCP houses youthful inmates for the county. Due to the COVID-19 pandemic, the facility is housing those inmates in an area call the "Busy Unit". This unit has (3) cells in a hallway and another (2) cells around the corner.

The showers are across the hallway for this unit. At the end of the hallway, there is a hearing officer office. There is no dayroom for this "unit".

There was a discussion with the staff and this Auditor regarding this housing arrangement. While the reasoning for the change in the housing areas is understandable, this arrangement does not meet PREA standard §115.14.

Because this hallway is used to get to the hearing officer, adult inmates are through that area throughout the day. Additionally, the (2) cells around the corner from the youthful inmates are utilized for adult offenders. While the youthful inmates cannot see these (2) cells, they could hear anyone in those (2) cells.

In order to come into compliance with this standard, the facility was required to house all youthful inmates under the age of (18) in an area where they will be sight and sound separated from adult offenders and if they are out of the housing unit, they are to be escorted by correctional staff.

The facility made the determination to move all youthful inmates under the age of (18) back to the pod where they were initially housed which is East F-Pod. The facility provided system generated Block Reports to verify that these youthful inmates are in this housing unit. A memo from the PREA Coordinator/Deputy Warden was also provided indicating that there is no intention of moving these offenders unless there is an emergent circumstance.

At the time of the onsite audit visit, there were (2) transgender inmates at the facility. Both were interviewed as part of the onsite audit process. It was clear from these interviews, as well as the interviews with staff, that the staff are comfortable working with transgender and intersex inmates.

The facility has been working with transgender and intersex inmates for many years. Each inmate who identifies as transgender or intersex is evaluated on a case by case basis to determine where that individual should be housed. Staff have regular contact with transgender and intersex individuals to ensure that they are safe.

These individuals are given the opportunity to shower at a different time than the rest of the unit that they are living in. If an inmate remains in the facility for at least (6) months, the staff will conduct a specific interview to determine if the inmate has any concerns with their housing assignment.

Interviews with the transgender inmates at the facility confirmed the information that was provided by the staff members. Each were asked the gender of the staff members who conduct their strip searches. Each indicated that staff address them by their preferred pronouns.

As this facility not only holds county offenders, it is also a facility which housed detainees for ICE. Because of this, the facility works to ensure that it is able to communicate effectively with inmates/detainees.

In all of the housing units, all posted information is in both English and Spanish. There are a number of staff members who are bilingual or more. A new tool that the facility has purchased to assist with translation is a handheld translation device. This is an excellent tool and one that this Auditor has not seen before. If none of those options are available at the time, the facility has a contract with a translation service that staff can call to assist. This company is Bilingual Conexion.

Additionally, if there are inmates who are deaf or hard of hearing, the facility will utilize closed captioning on videos that inmates view and have materials to read. Staff indicated that if there was an inmate who presented as cognitively impaired, they will read the information to the inmate or look for other ways to ensure that inmate understands the information provided.

The hiring process for the prison is a multi-step process involving the county human resources department, the prison's human resources department and head of security for the facility. The process begins with the applicant completing the application on NEO.gov. The application has a statement to be signed off on by the applicant indicating that all information is correct to the best of their knowledge.

The prison's HR person will go and pull the applications off of the website and screen those applications with a relatively new rating sheet. When the position notification closes and the rating sheets have been completed, the HR person will have the corrections officer candidates complete React training. Once those results are back, interviews will be determined and scheduled. During the interview process, candidates will be asked to complete a background check authorization form, drug screen authorization, provide (3) references, PREA information release form and a form with the PREA questions.

From those interviews, the interview panel will make their selections. These names are then sent to the county HR department, who will then check references. At the same time, the security commander at the facility will complete the background checks and contact any correctional facilities that the applicants may have worked at before applying to YCP.

Background checks are completed every (5) years as required by PREA standard. Additionally, background checks are completed when an employee applies for a promotion.

York County Prison is responsible for conducting the administrative investigations within the facility. Should the PREA Lieutenant determine that there are criminal elements to the case, he immediately contacts the Pennsylvania State Police to conduct the criminal investigation.

The PREA Lieutenant at the facility has been trained and utilizes a protocol for the preservation or collection of evidence. The facility has created a checklist to ensure that evidence is appropriately collected and/or preserved.

Should an incident be determined to fall within the (96) hour window, the victim will be transported to the York Hospital. This hospital is close to the facility and has SAFE nurses on staff to conduct the forensic examinations.

The agency's PREA policy clearly states that all services related to being a victim of sexual abuse at the facility, both emergency and ongoing, shall be provided without cost to the victim and regardless of whether the victim identifies the abuser.

When there is a victim that comes to the hospital for a forensic examination, the local rape crisis center is notified. This is typically done by the hospital. The recommendation was made by this Auditor for the facility itself to notify the rape crisis center in order to give additional time for an advocate to go to the hospital to provide accompaniment and information can be provided to the staff about the advocate that will be at the procedure.

At the time of the onsite audit, the facility was in the process of working with the local rape crisis center, YWCA of York. The facility provided email correspondence with the YWCA of York to set up a meeting. This process has had a set back though with the onset of the pandemic. The PCM will be reaching out to the rape crisis center to get that process and the Memorandum of Understanding (MOU) completed.

From the interviews with staff and review of documentation, employee training is a high priority for the facility. Staff are provided training on PREA during their initial training when they are hired at the facility, no matter what position they will be filling.

Additionally, there is annual training provided to all employees. This block training includes a segment dedicated to PREA. This training is provided by the Training Lieutenants at the facility or via an online training component. This varies from year to year.

Review of the training components verified that all required components are included in the initial training provided to all staff.

Training documentation is captured in an electronic system for the online components and paper documentation is kept for components that are done in person.

Volunteers are normally utilized in the facility during "normal" operations. However, again due to the pandemic, volunteers are not being used at this time. They have not been in the facility since March 2020, the time when the Commonwealth of Pennsylvania ordered the state to be shut down with the exception of essential services.

There is an application process for volunteers to complete that includes PREA questions which are similar to those that are asked on the employment application for a paid position in the facility.

Before a volunteer is allowed to enter the facility and have contact with inmates, they are required to go through a security briefing and PREA orientation. These training pieces were provided for review during the pre-audit phase of this audit and determined to be very thorough and provides the required information.

There was one volunteer interview conducted via telephone during the onsite audit. This individual indicated that he has been volunteering at the facility as a religious volunteer. He has had training on PREA at least two times in his memory.

Files are kept on all volunteers to include their background check, application and training information.

Inmates who enter YCP receive information regarding PREA in several different methods. In the booking area, the facility has televisions playing continuously which plays a video with PREA information in both English and Spanish. This information includes what PREA is and how to report if an inmate would need to. This video has information displayed in English so that if an inmate is deaf or hard of hearing, they can read the information included. This video is also played in all housing units on the facility channel at 5:00 PM every day.

The facility has information in the inmate handbook regarding PREA, its definitions and how to make a report of sexual abuse and sexual harassment.

In all housing units, PREA information is posted on the walls. They are in both English and Spanish. And if an inmate would need another language to read, there are translation services available to assist.

Interviews conducted with inmates verified that PREA information is being provided by the staff.

Specialized training for investigations is provided to any staff member that may have to conduct portions of investigations related to sexual abuse and sexual harassment. Both the PREA Lieutenant and PCM received this training at the PADOC training academy.

Additionally, staff participate in the online training provided through NIC. The facility has provided information indicating the individuals who have taken both the basic investigations training from NIC as well as the advanced investigations training from NIC.

This Auditor is familiar with all of these trainings and they meet the requirements of this standard for what should be included in a specialized investigations training.

York County Prison contracts with PrimeCare, who provides both medical and mental health services to the inmates at the facility. Through interviews with the contracted staff at the facility, it was evident that these contracted staff have had PREA training both through PrimeCare and through YCP. Interviews with staff indicated that the online training through PrimeCare is through the RELIAS training system.

Review of the documentation provided for this standard was unclear as to the specific training. The documentation provided was for a training titled “PREA: Reporting Obligations and Retaliation Protections”. As there was no curriculum provided for this training, this Auditor was unable to determine if this training meets the requirements for the Specialized Training for Medical and Mental Health.

The facility was required to provide additional information for the training in order for this Auditor to determine if the documentation provided meets the requirements of this standard. This documentation was provided and determined to satisfy the standard for compliance.

#### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Risk assessments are conducted for all new receptions into the facility at least (3) times if they remain in the facility for at least 60-90 days. These assessments are conducted at the following intervals.

- Admission (12 hours or less from admission)
- 96-120 hours from admission
- 60-90 days from admission

This policy exceeds the standard for conducting risk assessments. Additionally, the facility conducts the additional required assessments when new information is presented and if there is an allegation of sexual abuse reported to the facility.

Inmates are informed they do not have to answer questions and will not be punished for refusing to answer questions on the assessment.

During interviews conducted onsite and via telephone, there seemed to be confusion as to whether or not those inmates coming back to YCP from another facility receive an assessment. The facility was required to provide additional information on the process for risk assessment administration when an inmate returns to the facility.

The facility did provide additional information to this Auditor during the corrective action period. It was discovered that if there was an inmate that went out to another facility and came back, risk assessments were not conducted at (72) hours and (30) days as required by the standard. Since this has been identified as an issue for correction, the facility has developed a plan for the PREA Compliance Manager to ensure that these assessments are conducted in the appropriate timeframes.

## Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

*Policy 2.1: Sexual Abuse, Assault, Prevention and Intervention provides information for the use of the information obtained from an inmate's risk assessment as it relates to placement in the areas of housing, work, education and programming.*

Interviews also confirmed that this information is used in all of the required areas. Currently, due to the COVID-19 pandemic, many of the programs are suspended. Staff did indicate that some groups may be restarting on a smaller scale in the near future, with the proper safety protocols put into place.

The work that the facility does in terms of the placement of the transgender population is well above the minimum required by the standard. Each of these cases is looked at individually in terms of the appropriate placement within the facility. Transgender and intersex individuals are not placed based on genital status, but rather how the individual identifies and where they and the facility believe the safest placement will be for the individual.

Transgender and intersex individuals are met with on a regular basis to check in and ensure that the placement is correct and if there are any other needs of the individual. This process has been going on for many years at the facility, prior to the current Warden taking over as the Warden.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The facility provides multiple options for reporting sexual abuse and sexual harassment at YCP. The facility allows inmates to make reports verbally to staff members, by writing a request to staff members, by filing a written grievance or by making a call on the phone (\*55).

Staff confirmed that they will accept any report of sexual abuse or sexual harassment and immediately report that to their supervisor. Once they get through the initial steps of responding, they will document that report on an incident report.

Inmates are able to make anonymous reports either in writing or by calling the established number (\*55). This Auditor tested this phone number in two of the housing units during the tour of the facility. This line to the YWCA of York/Victim Assistance Center worked as identified.

Interviews with inmates also provided information about third party reporting. Inmates indicated that they could tell family or friends who could then make a report on their behalf.

Reporting information is posted on the facility's website for the general public to have access to.

Additionally, Policy 2.1 provides multiple methods for staff to make reports of sexual abuse and sexual harassment privately.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The YCP has an extensive grievance policy and procedure. The grievance procedure is found in policy *Inmate Complaint Review System (Grievance Procedures)*. This policy outlines the process for filing grievances, the review process, appeals process, informal grievances and disciplinary sanctions for those that are found to have submitted a grievance "in bad faith".

Upon review of the policies and procedures for the grievances, there appears to be portions of the standards that are not included in the agency's policies. This includes the following portions of the standards:

- The policy does not include the requirement that an inmate is not required to submit the grievance to a staff member who is the subject of the complaint.
- There is no indication in policy that inmates will be notified in writing when the maximum allowable extension of up to (70) days is needed in order to make an appropriate decision.
- Policy does not indicate that if an inmate does not receive notification of a decision within the allotted timeframe it should be considered a denial.
- The policy does not include information as to whether or not a third party can file a grievance on behalf of an inmate and if so whether or not the inmate needs to agree to the grievance that is filed.
- Policy should also indicate that if the inmate denies the filing from a third party, this denial should be documented.

In order to meet compliance with this standard, the facility revised policy to include the (5) above-mentioned items in the *Inmate Complaint Review System*. These changes can be found on pages 4, 13 and 14 of this policy.

The facility is currently working towards establishing a memorandum of understanding with the YWCA of York/Victim Assistance Program. Initially this process was started at the beginning of 2020. The PCM provided email correspondence between herself and staff at the YWCA in which they were setting a meeting. This meeting has been postponed due to the COVID-19 pandemic.

The interview with the PCM confirmed that it is her intention to continue the conversation with the rape crisis center as soon as she is able to reschedule the meeting.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Through interviews with staff and contractors and review of policy, reporting of sexual abuse and sexual harassment is considered essential to the safety and security of the facility.

When asked questions regarding reporting allegations of sexual abuse and sexual harassment, all staff were clear that this type of information must be appropriately reported to supervisors in the chain of command so that it can be investigated. It was noted that it was important to fill out the appropriate documentation required and submit those reports to supervisors and/or the PREA Lieutenant/investigator at the facility. Once that report has been made, it was clear from staff that the incident should not be discussed except with the PREA Lieutenant or other PREA people in the facility.

Documentation reviewed supported the fact that all allegations were appropriately referred for investigation and those investigations were carried through to conclusion and a determination of the case.

In speaking with the medical and mental health providers, all were clear about the information of sexual abuse they are required to report, versus the information that they are not required to report. Each was able to discuss how they informed inmates of this requirement to report.

This was also clear when the discussion was about the youthful inmates that are housed in the facility. Medical and mental health staff all understood the requirement to make those reports should there be disclosures of sexual abuse or sexual harassment.

## Standard 115.62: Agency protection duties

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.62 (a)

All staff interviewed during the audit process were clear that if they learned that an inmate was in imminent danger, they would take immediate action to protect that individual. All indicated that they would remove the inmate from their current location and supervisors would determine where the inmate would be safe at that time. Longer term solutions would then be discussed by the PREA staff and appropriate measures would be taken. Policy 2.1: Sexual Abuse, Assault, Prevention and Intervention says the same on Page 4.

York County Prison is clear in *Policy 2.1: Sexual Abuse, Assault, Prevention and Intervention* about handling allegations of sexual abuse that have occurred at another facility and allegations from other facilities about sexual abuse that has occurred at YCP.

In the previous (12) months, the facility has received (10) allegations of sexual abuse that has occurred at other facilities. The PCM at YCP provided the documentation to this Auditor for review. The PCM not only provided the basic information regarding the allegation, but also provides a statement from the inmate who disclosed the allegation, and a written report with any additional information that she is able to provide.

If there is an allegation that is sent to the facility regarding an allegation of sexual abuse at YCP, this information is automatically forwarded to the PREA Lieutenant for investigation.

The level of detail provided by YCP to other facilities when an allegation is received goes above and beyond the expectation of the standard.

#### 115.64 (b)

Compliance with this standard was verified in two ways as part of this audit. First, all staff were able to articulate the elements of the duties of a first responder should they have an inmate disclose sexual abuse or they should discover that it is occurring in the facility.

The majority of staff from all different departments within the facility were able to articulate the three most important tenants of responding to sexual abuse or sexual harassment. They indicated that the offenders should be separated, evidence should be preserved and an initial medical assessment should be conducted.

York County Prison works with two unions at the facility, the Teamsters Union and the Machinists Union. The corrections officers belong to the Teamsters Union. Supervisors belong to the Machinists Union.

The Warden indicated that the unions work well with the agency for the most part. He also indicated that if there is an allegation of sexual abuse, he has the authority to take any actions up to and including termination of the staff member. The union agreement does not preclude him from taking such actions.

As stated in §115.43, the facility does not put inmates in involuntary protective custody strictly for reasons of being a potential victim. This is true, even after there has been an allegation of sexual abuse. The facility will take into consideration the wishes of the victim as to where they would feel safe.

If there is a security concern, the facility has a process established to place the inmate in protective custody with regular reviews.

- Does Not Meet Standard** (*Requires Corrective Action*)

### **Instructions for Overall Compliance Determination Narrative**

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

All allegations are investigated administratively at the facility by either the PREA Lieutenant or the PCM of the facility. Both of these individuals have participated in the specialized investigations training provided by the Pennsylvania Department of Corrections at their Training Academy.

Should it be determined that the allegation may be criminal, this information will be immediately provided to the Pennsylvania State Police (PSP) for criminal investigation. Interviews indicated that there is a good working relationship with the PSP, and they work cooperatively together and receive regular updates on active investigations.

Retention of information is completed in accordance with the standard.

Review of the investigation files and discussion of the investigation process with the investigators leads this Auditor to believe that the facility is exceeding this standard. The investigation files reviewed as part of this audit are extensive and thorough for both sexual abuse and sexual harassment. These files show that the facility goes well above the minimum required under this standard in all investigation.

The investigation files are not only extensive and thorough, they also are extremely consistent in the elements that are included and the layout of the file. It was very easy for this Auditor to identify all elements of the investigation to ensure consistency of investigations. It is also clear the level of detail that is examined in every investigation that is conducted.

It is the opinion of this Auditor that the investigation methods employed by the investigation staff and the documentation utilized by this staff should be held as a best practice that other facilities could use to develop good practices from.

Policy dictates and interviews with staff and inmates confirmed that notification of the outcome of an investigation is provided to the victim involved in the investigation of sexual abuse.

Once the investigation is completed, submitted to the PCM for review and the review is completed, a letter is prepared, with all the required information from this standard. The PREA Lieutenant will personally go to the victim and provide them with the letter and explain the outcome to answer any questions.

The inmate will be asked to sign the letter and if a copy is requested, it will be provided. A copy of that letter, signed or an indication of refusal to sign, will be kept in the investigation file.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Through policy review and interviews with staff, it is clear there is a process followed when there is an allegation against a staff member. That staff member will be removed from contact with the individual who is alleged to be the victim until the investigation into the allegation is completed. Typically, that means that the staff member will be assigned to a different post.

If the outcome of the administrative investigation is that the case is unsubstantiated, the staff member may be returned to the previous post, but more likely will be removed from contact with that inmate, at least for a period of time to prevent any type of retaliation.

Should it be determined, through the investigation process, that a staff member has engaged in sexual abuse of an inmate, the presumptive action would be that the staff member will be terminated from employment. If the situation is determined to have criminal elements, this information will be turned over to the Pennsylvania State Police for a criminal investigation. Additionally, this information will be provided to any relevant licensing bodies, if those are known to the facility.

## Standard 115.77: Corrective action for contractors and volunteers

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.77 (a)

- Is any contractor or volunteer who engages in sexual abuse reported to: Law enforcement agencies (unless the activity was clearly not criminal)?  Yes  No
- Is any contractor or volunteer who engages in sexual abuse reported to: Relevant licensing bodies?  Yes  No

#### 115.77 (b)

- In the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer, does the facility take appropriate remedial measures, and consider whether to prohibit further contact with inmates?  Yes  No

## Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

## Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Policies and procedures are in place for the discipline of contractors and volunteers working within the facility and in contact with the inmate population. Just the same as with staff, if there is an allegation of sexual abuse against a contractor or volunteer, they will be removed from contact with inmates until the investigation process is completed.

Should it be determined, through the investigation process, that a contractor or volunteer has engaged in sexual abuse of an inmate, that individual will no longer be permitted access to the facility. If the situation is determined to have criminal elements, this information will be turned over to the Pennsylvania State Police for a criminal investigation. Additionally, this information will be provided to any relevant licensing bodies, if those are known to the facility.

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.78 (a)

- Are sanctions commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories?  Yes  No

#### 115.78 (c)

- When determining what types of sanction, if any, should be imposed, does the disciplinary process consider whether an inmate's mental disabilities or mental illness contributed to his or her behavior?  Yes  No

#### 115.78 (d)

Yes  No

#### 115.78 (e)

- Does the agency discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact?  Yes  No

#### 115.78 (f)

Yes  No

#### 115.78 (g)

- If the agency prohibits all sexual activity between inmates, does the agency always refrain from considering non-coercive sexual activity between inmates to be sexual abuse? (N/A if the agency does not prohibit all sexual activity between inmates.)  Yes  No  NA

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

It is the policy of the YCP that there should be no sexual activity in the facility and if found, there will be sanctions placed upon the inmate found to have willingly participated in such activity.

Policy review and interviews with staff both indicated that if an inmate was found to have sexually abused another inmate, there are policies in place to direct the sanctions that will be implemented. These policies take into consideration the level of offense and mental health status of the perpetrator of the sexual offense.

If it is determined that an offender made an allegation of sexual abuse in good faith, without malice, the offender is not punished for making that allegation, regardless of the outcome of the investigation. However, should it be determined that the individual made the allegation knowing that it was untrue, that individual can be sanctioned for that false report.

All inmates are provided a risk assessment for sexual victimization and/or abusiveness when they arrive at the facility as directed by §115.41. If the inmate discloses sexual victimization, this will automatically trigger a referral to mental health in the computerized system. Once that referral is sent to mental health, that inmate will be seen in a relatively short time period, usually within a couple of days, depending on when the risk assessment is conducted.

Interviews with medical and mental health staff confirmed that prior to any discussions of sexual abuse, or if the practitioner believes that the inmate is about disclose information related to sexual abuse, the staff will discuss the limits to confidentiality they are ethically bound to in the situation.

When asked about those particular limits to confidentiality, staff were able to articulate that any information provided to them regarding abuse in a correctional setting must be disclosed to security staff for investigation or referral to the institution where the abuse occurred. Staff were clear that abuse that occurred in the community would only be disclosed with the permission of the inmate.

The facility has (24) hour per day medical services. Inmates have access to those services as needed. If there is a situation in which an inmate needs emergency medical treatment beyond the capabilities of the medical department, the inmate will be sent to an outside hospital for those services upon the orders of the medical personnel on duty at the time.

Policy indicates that these services will be provided to the inmate without financial obligation. This was also verified through interviews with staff members.

Emergency contraception and sexually transmitted infections prophylaxis will be provided to inmates if that is ordered by the physician at the facility or as a follow up to emergency medical services provided at an outside hospital.

York County Prison contracts with PrimeCare to provide both medical and mental health services at the facility. These services are provided in the event of a crisis and follow up to the initial services provided. As the facility houses both male and female inmates, pregnancy tests can be administered at the facility and options will be discussed with the inmate, should the pregnancy test be positive.

When questioned during the interview process, both inmates and staff indicated that these services were provided at least at the level of what is available in the community, it not higher in some cases. This was due to the fact that the wait time to get into see either one is so much faster than in the community, especially for mental health services.

Sexual abuse incident reviews have begun as a relatively new process for YCP starting in October 2019 as a result of the ICE PREA Audit process. The PREA Coordinator and PCM realized that in order to meet this standard, there must be a group approach to this review process.

Every Wednesday, the team has a standing meeting for sexual abuse incident reviews. This is coordinated by the PCM. Some weeks there may not be any cases to review, and other weeks may have several to review.

The team includes the following people.

- Warden
- Deputy Warden of Centralized Services/PREA Coordinator
- Deputy Warden of Security
- Security staff
- PREA Lieutenant/Investigator
- PREA Compliance Manager
- Health Services Administrator
- Head of Mental Health Services

This group has made some recommendations as part of past reviews. These recommendations have been followed up on. One example given was that there needed to be an additional security staff member in F-Block. This was put into place. Now that block is closed down due to the pandemic, but that position will stay if that block is opened back up.

This is the second DOJ PREA audit this facility has participated in. The report for the audit conducted in 2017 is published on the agency website.

Prior to the onsite audit visit, the staff protested the required PREA audit notices throughout the facility and provided photographic evidence of the required postings. Included on those postings was this Auditor’s address for inmates to write to. No letters were received prior to the onsite audit; however, one letter was received after the onsite audit, just prior to the writing of this report. The envelope of this correspondence did not appear to be opened before being mailed.

The staff at the York County Prison were extremely helpful throughout the entire audit process. The staff were open to discussion with this Auditor on how to conduct interviews in the safest manner possible while taking health, safety and security into consideration.

All interviews were conducted in private, confidential settings. The staff worked with this Auditor to coordinate the interviews with both inmates and staff members.
