The Weatherization Program

This program is designed to reduce heating and cooling costs for low-income persons, with priority given to high energy users (the elderly, people with disabilities, and families with children) by improving the energy efficiency of the home and helping ensure health and safety.

This program is funded in part by the Department of Energy and/or the Department of Health and Human Services. No repayment is required for the services provided and no liens are filed on the property. Both owners and renters may apply. There is a shared cost requirement for the owners of rental properties. The program is designed to reduce the energy consumption of the dwelling through the installation of various energy conservation measures.

- Work is done free of charge for eligible households.
- Specially trained workers make specified repairs to your home so that it becomes more efficient to reduce your heating and electric bills.
- Services include attic and basement insulation, water heater and pipe insulation, window and door weather-stripping, caulking and broken glass replacement.
- Also as part of the Weatherization Program, your furnace and water heater are tested for efficiency and safety.

The Home Improvement Program (HIP)

The Program is designed to help income-eligible resident homeowners in the County of York by providing financial and technical assistance for necessary home repairs including, but not limited to, replacement of roofing and heating systems, major electrical, major plumbing, sewer/water hookups, replacement of septic systems, and Senior Safe/ADA modifications. The Program does not provide assistance for repairs that are of a cosmetic nature, or for regular maintenance and upkeep of a property.

Loans are provided in the form of a zero interest loan with a deferred payment. This means that a mortgage lien in the amount of the loan is filed against your property for security. As long as you, the Program participant, remain the occupant and owner of the property, no payment is required and no interest is charged. When the property is sold or transferred or it ceases to be your residence, the full balance on the loan becomes due and payable. The deed to the property remains in your name and is not transferred to the County of York.

Grants may be available for necessary home repairs to eligible homeowners age 55 and older, and disabled individuals. Grants may be awarded up to \$10,000 and will be used to address health and safety risks, code violations, mobility improvements, and Weatherization supplements.

In order to determine your eligibility, you must fill out and submit a pre-application. Once your pre-application is reviewed, if you meet initial eligibility requirements, your name will be placed on our waiting list.

York County Special Needs Registry

The York County Special Needs Registry is a voluntary, community outreach service to assist elected officials and emergency responders in municipalities across York County in obtaining important information on special needs residents living in their communities. Special needs residents includes, but it not limited to individuals:

- with mobility difficulties
- with developmental or intellectual disabilities
- with sight or hearing impairments
- who utilize special medical equipment
- without a reliable or consistent form of transportation
- without access to emergency information via television, radio, or internet

The Special Needs Registry also assists residents by ensuring that all emergency response units (fire, police, EMA, etc) have access to the same information about each person - thus decreasing confusion during an emergency situation. This standardized information decreases safety risks to both responders and residents in emergency situations.

Under state law, municipalities are required to keep information on special needs persons in their area, and the Special Needs Registry provides an organized system to do so. Also, state law requires group living arrangements to provide their own emergency plan. Therefore, the Special Needs Registry is a resource for residents with special needs who have no reliable source of assistance in the event of an emergency. The Special Needs Registry can be used for more than just evacuation purposes - the information it provides is also helpful in any emergency situation (fire, chemical spill, police incident, etc).

Contact the York County Special Needs Registry

If you have questions, comments, or concerns about the York County Special Needs Registry, please email York County Human Services. Alternatively you can email the York County Office of Emergency Management.

Mission Cataract USA

The goal of Mission Cataract USA is to eradicate blindness due to cataracts and bring as many people as possible from blindness to useful productive lives.

Mission Cataract USA coordinated by the Volunteer Eye Surgeons' Association, is a program providing free cataract surgery to people who have no other means to pay. Surgeries are scheduled annually on one day, usually in May.

How is surgery performed?

In cataract surgery, the surgeon removes the eye's natural crystalline lens -- which has lost its transparency, causing blurred or distorted vision. Today, modern cataract surgery is an outpatient procedure. In most cases, the patient can return home the same day.

Who is eligible for Mission Cataract USA?

To qualify applicants must have: poor vision, due to cataracts uncorrectable with glasses, which interferes with activities of daily living, no Medicare, Medicaid, or third party insurance coverage, and no other means to pay for cataract surgery.

Donated Dental Services

Donated Dental Services (DDS) program provides free, comprehensive dental treatment to our country's most vulnerable people with disabilities, who are elderly, or medically fragile. These are people who cannot afford necessary treatment and cannot get public aid. The program operates through a volunteer network of more than 15,000 dentists and 3,700 dental labs across the United States. Dental insurance is used first, including dental benefits provided through Medicaid. DDS covers extensive dental treatment; it does not cover cleaning and regular checkups.

Rent-a-Kid

The Rent-A-Kid Program, sponsored by the York County Area Agency on Aging, is an intergenerational program bringing older adults and teenagers together.

York County adults 60 years of age or older who need help with various household chores, including light housekeeping, lawn mowing, yard work, snow removal, technology assistance, and other odd jobs can contact the York County Area Agency on Aging to obtain a listing of "kids" in their community. The older adult is asked to reimburse the "kid" a negotiated rate of at least minimum wage based on the job.

The "kids" are York County students in grades 7 through 12. They must complete an application and have it signed by their parent and school guidance counselor. (Home-schooled kids are also eligible.) The kids are then entered into a regional database.

When the older adult contacts the agency, they are matched electronically with kids in their area. The older adults and kids are not screened by the York County Area Agency on Aging.
