MD@HOME, Inc is a group of experienced physicians dedicated to providing care in the comfort and convenience of your home.

They offer a broad range of service including urgent care for acute problems and comprehensive care for chronic conditions and can arrange for all the tests, studies and consultations that might be required to fully evaluate and treat any problems. They can complete physicals, all blood test, x-rays, EKGs, sonograms, and Doppler studies.

During each house call, MD@HOME doctors are accompanied by a certified medical assistant.

MD@HOME coordinates care between families, nursing agencies, and home health services.

To meet the qualifications for Doctor's home visits, the patient has to meet Medicare's Home Bound status.

MD@Home is available to patients with Medicare and Medicare Advantage plans and several other insurance coverages.

New Patients must download and complete this form: [http://www.md-at-home.com/New Patient Information.pdf](http://www.md-at-home.com/New_Patient_Information.pdf)
