MAKING A CHOICE TO CHANGE

We are here to help you.

It really is that simple. You can get your life back. Reunite with your family and friends. Recreate meaningful relationships. Regain your health, self-respect and freedom.

What Is Drug Treatment Court?

York County Drug Treatment Court (DTC) offers substance abuse treatment as an alternative to incarceration for addicted non-violent offenders.

It is not a...

How Do Treatment Courts Work?

To be part of the program, you need to have a desire to change your life. Your team of Treatment Court experts is here to help you map out your road to recovery.

Drug Treatment Court is designed to be a 12 to 18 month program. It is a minimum of 12 months. Your progress determines the length. The program consists of three phases. Your probation officer will review requirements with you at the beginning of each phase. Participants must meet the requirements of each phase before moving to the next.

As a participant, your job is to meet the obligations to yourself, your family and society. To ensure accountability, you are:

Provided with intensive treatment and other services that require you to get and stay clean and sober

Regularly and randomly tested for drug use

Required to appear frequently in Court for the Judge to review your progress

Rewarded for doing well and sanctioned for not living up to your obligations

How Do Treatment Courts Work?

The program consists of three phases:

- Phase I: Report to Court weekly (minimum of 2 months)
- Phase II: Report to Court every two weeks (minimum of 4 months)
- Phase III: Report to Court monthly (minimum of 6 months)

Your Probation Officer will review the requirements at the beginning of each phase. Remember: If you have questions, please ask a Treatment Court team member.

Our Treatment Court Team stresses accountability, responsibility, combined with compassion and understanding.

The Judge serves as the leader of an inter-disciplinary team of professionals who oversees your progression and lapses throughout treatment. Team members include:

- Court coordinator
- Prosecuting attorney
- Defense attorney
- Treatment providers
- Case managers
- Probation officers
- Community Partners

Tools For Success

Lifeskills Training: All participants must complete Lifeskills Training. Participants will review Treatment Court program expectations and learn tips and tools to prepare for social and employment opportunities.

Screenings/Assessments: Before moving forward in the program, a Drug/Alcohol Case Manager will meet with you to initiate comprehensive screenings and assessments, including RANT (Risk and Needs Assessment Tool) to determine your treatment needs. If treatment is required, they will assist you throughout the treatment process. In addition, they will launch a case coordination review to decide if there are non-treatment needs to be addressed such as education and housing. To help ensure your long term success, you will also receive assistance in developing and connecting to support systems (AA, NA, faith-based group) so that you can begin building a strong foundation of supporters.

Alumni Panel:

The Alumni Panel's mission is to assist and mentor active members of the Treatment Court Program with questions and/or problems that may occur while participating in the program. Alumni Panel members are successful graduates of Treatment Court and who have the knowledge of what it takes to succeed in this program. The Alumni Panel was created to help you and should not be observed as a sanction.

Ex-Offender Program:

The Successful Ex-Offenders mentoring group uses ex-offenders as a mentoring resource. The Pennsylvania Board of Probation and Parole, York County Adult Probation, Capital Region Ex-Offender Support Coalition and the community are partners in this program. This group meeting is held weekly and is designed to provide support and guidance to people who are striving to become successful ex-offenders.

Young Men's Group/Young Women's Group:

As part of the recovery program, there are gender specific support groups for the younger population in which issues and discussions are tailored to address the commonalities identified for that specific age group.

Remember the 5 B's

To be a successful graduate of the Treatment Court program, you need to...

- Be honest. The sanctions will be less severe if you tell the truth. One of the first steps of recovery is getting honest with yourself and everyone around you. Lying leads to relapse!
- Be drug and alcohol free!
- Be crime-free!
- Be active in your recovery program. Attend all scheduled treatment sessions. Obtain a Sponsor.
- Be compliant with all directives from the Court

**We are not here to “catch” you doing something wrong...
We are not here to embarrass you if you fail...
We are here to help you live a life free from addiction!**

Make the choice to change...

Are you entering Treatment Court in order to avoid going to prison or to lessen the number of days you spend in prison? Or are you choosing Treatment Court so that your criminal charges are reduced or possibly dismissed? If your answer is YES, that's okay. Consider this your first step toward a positive change.

Our Treatment Court Team is here to help guide you along the road to recovery. It starts with you choosing to change. It won't be easy. But it will be worth it! Read what some York County Treatment Court graduates had to say about their experience:

“I was the worse of the worse. I went to 5 rehabs in 10 years. Now I am drug free. I made it! I did it! I couldn't have done it without Treatment Court.”

“How I have become successful is how I am living now. I value freedom. I value my recovery. Things fell back into place not because of luck but through hard work.”

“On my 17th, 18th and 19th birthdays, I was a heroin addict. On my 20th birthday, I was in jail. On my 21st birthday I was in Treatment Court. On my 22nd birthday, I was sitting on a beach resort vacationing with my family who trust me again.”

“If you've come to this program looking for an easy ride—you've come to the wrong place.”

“Being sober is the best ‘high’ ever...and I didn't have to pay for it!”

“Stay in the moment. Trust the process.”

“Drug Court is not something I wanted to do; it is what I needed to do.”
