

<p>York/Adams Drug & Alcohol Commission Policy & Procedure Manual</p>	<p>Number: T-3 Policy: Injection Drug User 90% Treatment Capacity</p>
<p><i>Most Current Revision:</i> 4/10/13</p>	<p><i>Page:</i> 1 of 1</p>

I. Purpose:

To establish notification requirements to York/Adams Drug & Alcohol Commission of any contracted treatment provider reaching 90% capacity to admit injection drug users.

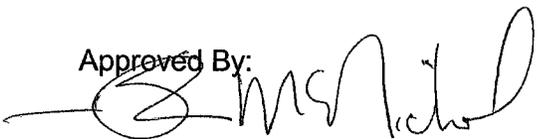

II. Policy:

Any Contracted Treatment provider that treats individuals for injection drug use must have written policy to address capacity notification to YADAC.

Upon reaching 90% capacity, the contracted treatment provider must notify YADAC within seven (7) days of admission restrictions of any type into treatment for reason including but not limited to the depletion of the assigned funding cap.

Notification must be received in writing and may take the form of email, fax, or traditional mail. Upon notification, YADAC staff, stakeholders, and the public will be notified.

Contracted Treatment providers are then responsible for notifying YADAC upon resuming admissions.
